### **DETAILED ACTION**

1. This is in response to applicant's argument filed February 17, 2006, in which claims 1-20 are pending.

After further search and thorough examination and in view of applicant's argument, claims 1-20 are found to be in condition for allowance.

#### ***Allowable Subject Matter***

2. The following is an examiner's statement of reasons for allowance: the prior art Glitho et al (US 6,233,449 B1) teaches an operation and maintenance control point (OMCP) operates at a telecommunication network and trouble sniffs and correction actions and compare the result with predicted result and analyzes and it is call self engineering telecommunication network see abstract.

On the other hand, the present application specifically teaches generating a component status indicator for the component based on a set of pre-defined rules which rules utilize the component status indicators and as a result of rules evaluation handles the component status indicator for the component. These limitation, in conjunction with all other limitations, have not been disclosed, taught or made obvious over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
